What is WordPress?

WordPress is a Content Management System (CMS). That just means it is a piece of software that can help you manage and organize your content into an impressive and coherent website.

Initially WordPress was created as a blogging tool, but over the years it has become so much more than that. Today, many WordPress driven sites look nothing like blogs (unless that's what the user wants). This is down to the flexibility of this amazing tool.

WordPress powers simple blogs, corporate websites and everything in between. Companies like Sony, the Wall Street Journal, Samsung, New York Times, Wired, CNN, Forbes, Reuters and many others, all use WordPress as part of their online presence.

WordPress is 'open source', meaning that all of its code is free to use and customize. This is one of the powers of WordPress, since programmers the world over have created their own additions to this powerful publishing platform; from website templates to plugins that extend the functionality of this amazing site building tool.

Privacy Policy Page

As a website owner, you may need to follow national or international privacy laws. For example, you may need to create and display a Privacy Policy. If you already have a Privacy Policy page, please select it below. If not, please create one.

The new page will include help and suggestions for your Privacy Policy. However, it is your responsibility to use those resources correctly, to provide the information that your Privacy Policy requires, and to keep that information current and accurate.

After your Privacy Policy page is set, we suggest that you edit it. We would also suggest reviewing your Privacy Policy from time to time, especially after installing or updating any themes or plugins. There may be changes or new suggested information for you to consider adding to your policy.

Come Sail Away with Me

Individually, we are one drop. Together, we are an ocean.

Tarunde Viki

[Adventure](#)

On crossing the imaginary line drawn from Punta Mala to [Acapulco](#) the ships from Europe bound to Salaco lose at once the strong breezes of the ocean. They become the prey of capricious airs that play with them for thirty hours at a stretch sometimes. Before them the head of the calm gulf is filled on most days of the year by a great body of motionless and opaque clouds. On the rare clear mornings another shadow is cast upon the sweep of the gulf.

WordPress posts are date-dependent and chronological and this separates them from pages which

are date-independent and not really related to any other piece of content on the site. Posts were originally designed to be ordered by date, with a post you created yesterday logically appearing lower down the page than a post you make today. Newer posts are inserted at the top of the page, and older posts are pushed off the bottom.
